

## Down-Thrust Clamps · swivelling, size 82.5

EH 23310.

### Product Description

The down-thrust clamp is a universal mechanical clamp that allows fast and easy exchange and clamping of workpieces - as the clamping claw can be easily manually swivelled to clear the workpiece.

The down-thrust clamps have the following advantages:

- Compact design
- Clamping force of up to max. 30 kN via a clamping screw WS 36
- Clamping claw swivels 360°
- Clamping stroke 30 mm
- Clamping height max. 250 mm
- Integrated clamping height stop for safe use
- Easy and quick workpiece change by swivelling the clamping claw to the left or right. The positioning ring 23310.0351 allows infinitely variable adjustment and permits precise repeat clamping.

### Material

- Case-hardened steel, case-hardened, blackened and ground

### Assembly

Fixture via 4 cap screws M 24 with a hole spacing 100 x 100 mm

### More information

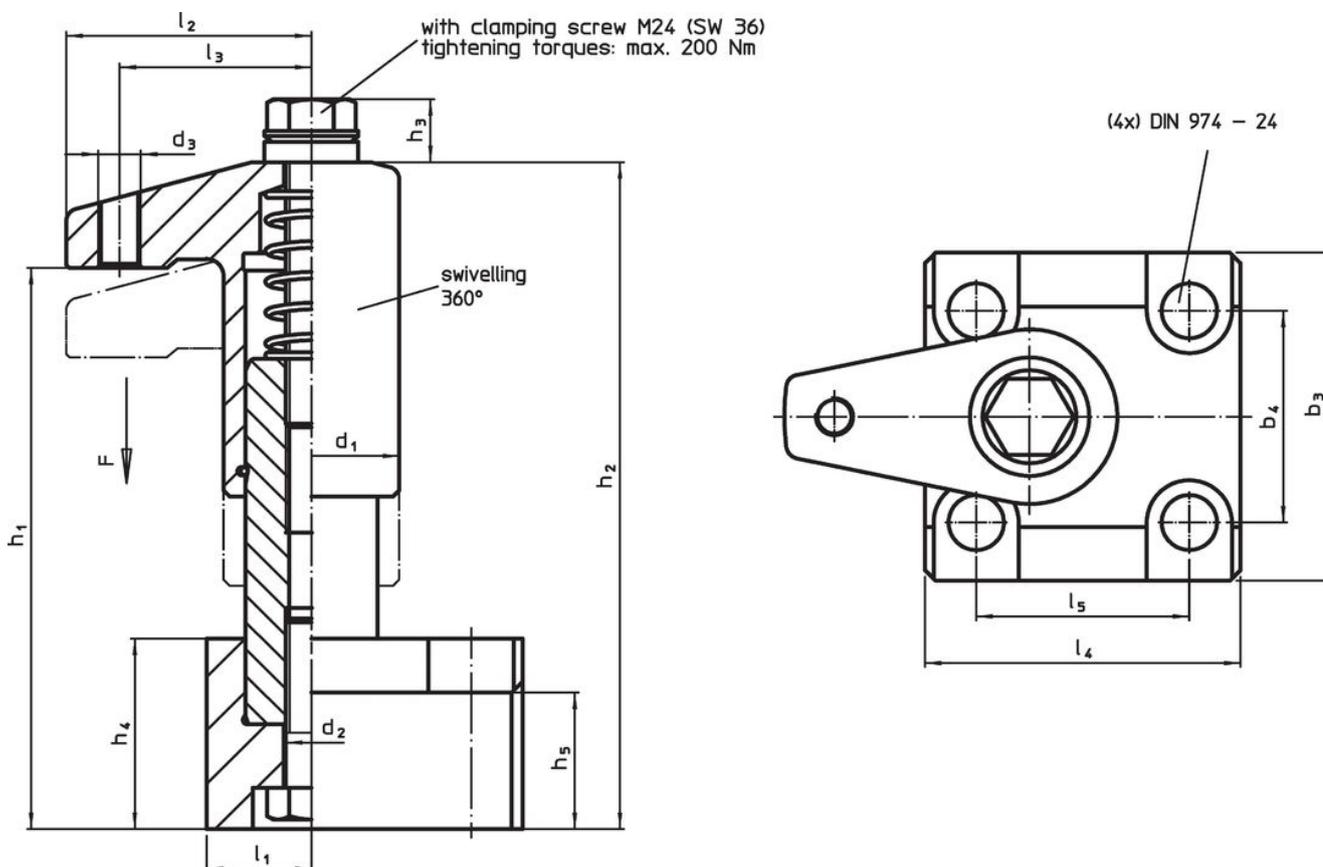

### References

The clamping height can be reduced by using clamping inserts, e.g. EH 22730.

### Further products

- Positioning Rings, for down-thrust clamp
- Wrenches

Application example

Compliance

RoHS compliant

Contains lead - compliant according to exceptions 6a / 6b / 6c.

Contains SVHC substances >0,1% w/w

Contains lead - SVHC list [REACH] as of 23.01.2024.

Contains Proposition 65 substances

Lead can cause cancer and reproductive harm from exposure
